Amr Hesham

SUMMARY

Frontend Developer with hands-on experience building modern, responsive web applications using React.js, TypeScript, JavaScript (ES6+), and Tailwind CSS. Experienced in developing reusable component-driven UIs, managing application state, and integrating REST APIs. Proven track record of building and deploying real-world projects with active user engagement and delivering high-quality web experiences.

PROFESSIONAL EXPERIENCE

Self-Employed, *Frontend Developer* 10/2025 – Present | Mansoura

• Develop real-world frontend applications using React.js, TypeScript, JavaScript (ES6+), and Tailwind CSS.
• Design and build responsive, reusable, component-driven interfaces with a focus on clean and maintainable code.
• Implement robust state management, RESTful API integration, and modern frontend architecture patterns.
• Deploy and maintain production-ready web projects using Git/GitHub workflows and Vercel.

EDUCATION

Mansoura University, *Bachelor of Computer Science* 10/2024 – Present | Mansoura

SKILLS

Languages & Core
JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries
React.js, Tailwind CSS, React Router, Context API

Tools & Platforms
Git, GitHub, VS Code, Vercel

APIs & Concepts
REST APIs, Responsive Web Design, Component-Driven UI, State Management, Clean Code

LANGUAGES

Arabic (Native) | **English** (A2)

PROJECTS

Jogo – Football Platform MVP , *React.js, TypeScript, Tailwind CSS, REST APIs* 07/2026 – 08/2026

• Developed the core frontend MVP for a collaborative football platform under strict sprint deadlines.
• Built interactive, responsive UI components using React.js, TypeScript, and Tailwind CSS following modern UI/UX patterns.
•Integrated backend REST APIs and implemented client-side state management for dynamic content rendering.
• Collaborated within a cross-functional sprint team to deliver and deploy a functional product on Vercel.

React Store – E-Commerce Platform , *React.js, TypeScript, Tailwind CSS* 07/2026 – 08/2026
• Built a modern e-commerce web application featuring product listing, filtering, category navigation, search, and dynamic product details.
• Implemented global shopping cart state management using React Context API and custom hooks.
• Leveraged TypeScript for type-safe development and maintained a scalable, reusable component architecture.
• Designed a responsive, mobile-first interface with reusable UI components and clear loading and error states.

Maro Dash – Student Dashboard , *JavaScript (ES6+), HTML5, Tailwind CSS* 03/2026 – 03/2026
• Developed and deployed an interactive student tracking platform serving **320+ active users**, with **3.1K+ user interactions** and a **34% engagement rate**.
• Engineered client-side functionality using **Vanilla JavaScript (ES6+)** for state handling, dynamic DOM updates, and interactive data visualization.
• Designed an intuitive, **mobile-first responsive interface** with Tailwind CSS, focusing on usability and a smooth user experience.

ORGANISATIONS

CIS Team MU, *Technical Member & Support Member* 02/2026 – Present | Mansoura
• Instructed and mentored students in core web technologies, including HTML5 and CSS3, during practical workshops.
• Led the coordination of technical workshops, project workflows, and campus events connecting students with industry practices.
• Managed technical logistics, speaker communication, and attendee support across university events.
• Facilitated cross-functional team collaboration, agile task coordination, and technical initiatives to support student development.
